Institution/Place of Education

Yan Lin Pai

[Assertive leader] [Networker] [Flexible]

Thinking

Analysing | Exploring

Yan Lin prefers following established and proven approaches when dealing with any obstacles. Yan Lin appreciates the need for authority and rules and can adjust easily to this. Yan Lin is generally practical and down to earth but at times may benefit from keeping an open mind to new or novel approaches to problems.

Yan Lin prefers to take decisions based on feelings or instinct rather than rely on evidence. As a result, Yan Lin tends to pay attention to different views and opinions rather than spending their time analysing data.

Connecting

Networking | Collaborating

Yan Lin is someone who feels at ease when connecting with new people and generally has a well-developed network.

Yan Lin tends to keep their opinions to themselves and avoids getting involved in problems of their co-workers. Yan Lin can be quite competitive and may be skeptical about people unless proven otherwise. Yan Lin may take decisions without considering the viewpoints of others.

Executing

Quality | Result Driven

Yan Lin tends to be systematic, methodical and organised and delivers within deadlines. Yan Lin is reliable and disciplined and driven to achieve their goals.

Yan Lin pays attention to details and enjoys delivering work that is of a high standard.

Progressing

Leadership | Resilience | Adaptability

Yan Lin enjoys being in charge and is lively and talkative in groups. Yan Lin is comfortable sharing their ideas and tends to be assertive and dominant.

Yan Lin is focused and drives their team towards desired outcomes.

Yan Lin is comfortable with working in rapidly changing environments.

Yan Lin may feel demotivated when faced with negative feedback or setbacks.

Dear Hiring Manager,

I am writing to express my interest in the Senior Web Application Developer position as advertised. With a strong foundation in web development and a passion for delivering high-quality, user-centric web applications, I am eager to contribute to your team.

Over the past 14 years, I have developed and maintained websites and web applications using technologies such as PHP, HTML, CSS, JavaScript, and various frameworks like React and Angular. My experience includes working on both front-end and back-end development, software development optimizing web performance, and ensuring that applications are responsive and accessible. I am also proficient in server-side languages like PHP and have experience working with databases such as MySQL and MongoDB.

In my previous role as Senior Team Lead Web Developer at Shweproperty MM Ltd, I successfully led the development of a project or platform, which resulted in such as increased user engagement, higher conversion rates, etc.. . My ability to work collaboratively in fast-paced environments and my commitment to continuous learning make me confident in my ability to contribute to your team.

I'm always looking to enhance my skills, so I regularly engage with the latest updates and best practices for both technologies through tutorials, documentation, and community forums.

Yes, I have experience with Search Engine Optimization (SEO). I can help with various aspects such as keyword research, on-page and off-page optimization, technical SEO, and content strategy. I can also assist with SEO audits and best practices for improving search engine rankings.I've been familiar with digital marketing concepts and best practices, including SEO.

Right to Work in Singapore:

I require sponsorship to work in Singapore. I am fully committed to meeting all necessary requirements and am eager to contribute to success.I am particularly drawn to the company/team/product because of your innovative approach. I believe my skills and experiences align well with the needs of your team, and I am excited about the possibility of contributing to your projects.

Expected Monthly Basic Salary:

Based on my experience and the industry standards, my expected monthly basic salary is Nego. However, I am open to discussing this further based on the specific responsibilities and expectations of the role.Is the salary negotiable: Yes, I am open to discussions regarding compensation.

Management

In my recent role as a Senior Team Lead at SG Shweproperty Pte.Ltd Company, I managed a cross-functional team of 4 developers and designers on a large-scale software development project. Our objective was to deliver a new application within a tight six-month timeline.

I implemented daily stand-up meetings and used project management tools Slack and Taiga to ensure clear communication and track progress.

One of the major challenges we faced was a mid-project scope change requested by the client. I facilitated a series of workshops to realign the team's efforts, prioritize tasks, and adjust the timeline without compromising on quality. The experience also strengthened my skills in remote team management, conflict resolution, and Agile practices."

Understand English

I understand that English is the primary language used in your company, and I'm comfortable communicating in English. I've worked in English-speaking environments for several years and regularly interact with native speakers both in professional and social settings.

Didn't need any assistance when talking with native speakers, as I can effectively understand and engage in conversations on my own.

Overall, I'm confident in my ability to handle all communication in English without the need for interpretation or translation assistance

        Please find my resume attached for further details about my experience and qualifications. I would welcome the opportunity to discuss how I can contribute to your team in more detail. I am available at your convenience for an interview and can be reached at +66814965209 or yanlinpai@aol.com.

Thank you for considering my application.

Sincerely,
Yan Lin Pai
